Computer Engineering Department
CS491/2 Senior Design Project I/II

Meeting Minutes Document

MEETING AGENDA

CS491 Team ID:	TBD		
CS491 Project Name:	Specialized NPC and Crowd Management Tool		
Date of Meeting:	09/10/2026	**Time:**	21:00

1. Meeting Objective

Project main details (topic, instructor, innovation experts) proposal and discussion of the suggestions.

2. Attendance at Meeting

Student ID	*Name*	*E-mail*	*Attended (Y/N)*
22202801	Ata Eren Kılıç	erenkilic@ug.bilkent.edu.tr	Y
22203359	Başar Çubukçuoğlu	basar.cubukcuoglu@ug.bilkent.edu.tr	Y
22203455	Emir Atlas	emir.atlas@ug.bilkent.edu.tr	Y
22202664	Muhammed Emir Eren	emir.eren@ug.bilkent.edu.tr	Y
22203670	Yunus Emre Erkan	emre.erkan@ug.bilkent.edu.tr	Y
Instructor I	Mert Bıçakçı	mert.bicakci@cs.bilkent.edu.tr	Y
Instructor II	Hüseyin Açacak	huseyinacacak@bilkent.edu.tr	Y
Supervisor	Uğur Güdükbay	gudukbay@cs.bilkent.edu.tr	N

MEETING MINUTES

Write down the subjects discussed during the meeting and clearly indicate assigned tasks, actions planned, deadlines that is advised/planned to be executed below.

3. Topics, Issues discussed during the meeting and Decisions taken
1. Instructors gave brief explanation on how the process will go for the ongoing meetings with them. It is said that our team will be assigned to one of the instructors and we will conduct the other meetings with the assigned instructor. Additionally, we need to set up the upcoming meetings with the instructor from the calendar.
2. Project topic, supervisor, and innovation expert details have been discussed. The topic of the project is creating a plugin to enable realistic crowd navigation and behaviors in game engines. Our supervisor is Prof. Uğur Güdükbay, and our innovation experts if Cem Çimenbiçer from Taleworlds Entertainment.
3. Details of the project have been discussed. The project aims to optimize the crowd behaviors in challenging situations such as waiting for an elevator, or passing from a narrow corridor. The characteristics of each individual in the crowd will be considered during the process. The project is planned to be developed on Unity.
4. Possible use cases of the project have been discussed. Initially, we declared our target audience as game developers who are dealing with crowd navigation problems. We proposed they can use our plugin to solve the problems related to crowd behaviors. Instructor Mert Bıçakçı suggested broadening the target market, and talked about some possible use cases by giving examples on military simulations. He advised checking Simsoft's products as it is a company providing military simulations for the army.
